1. About the Organization

HDFC Bank is India's leading private sector bank, pioneering digital banking innovations, retail financing solutions, and corporate banking infrastructure across the nation.

2. Key Roles & Responsibilities

- Supervise digital payment gateway flows, UPI clearing validations, and FinTech integrations.
- Analyze fraud detection alerts and implement risk mitigation rules on transactional engines.
- Coordinate automated financial reconciliation workflows and regulatory RBI filings.
- Work with development teams to test and validate digital banking portal enhancements.

3. Technical Requirements & Qualifications

- Solid grasp of Financial Accounting, Banking Operations, and Digital Payment Ecosystems.
- Proficiency in MS Excel (Formulas, Pivot Tables, Macros) and financial data modeling.
- Strong analytical mindset and attention to regulatory details.
- Excellent negotiation and customer relations skills.

4. Selection & Interview Process

- Step 1:** Round 1: Online Aptitude & Domain Assessment (Financial Literacy & Logic)
- Step 2:** Round 2: Case Analysis & Personal Interview
- Step 3:** Round 3: Senior Management & HR Fitment Round
